

Hermes' Coloring Pages

Hello there Dragon Enthusiast! I'm Hermes the dragon, and today I'd like to show you how I can see. Add some color to find out!

Here is how my eye sits in my head. See all the protective horns and scutes (plates) around it? I want to keep it safe.

Two parts of my eyes can change shape to allow me to see clearly, even if I am really far away or high up in the sky. Human eyes only have one part that can change shape. What other things make my eyes special?

Check in with me on my website for more pages!
