

Hermes' Coloring Pages

Hello there Dragon Enthusiast! I'm Hermes the dragon, and today I'd like to show you why my feet are so... well, dragony. Add some color to find out!

My foot and toes are surrounded by thick, tough scales called scutes. They protect me from thorns and other painful things.

See the bones in my front toe? They have to be thick so that they are strong enough for me to land on after flying.

My big, sharp claws help me grip prey and climb cliffs and trees.

Check in with me on my website for more pages!
